Final Year Students Back to School

All final year students from Tertiary Institutions, Senior High School (SHS) and Junior High Schools (JHS) have returned to school since schools were closed down last March by the government of Ghana as a of COVID'19. The period between 22nd and 29th June, 2020, the government has put in place elaborate strategies and protocols to enable final year students at all three levels to go back to school and complete their respective final and exit examinations.

According to the government, Senior High Schools are expected to spend six weeks in school to complete their syllabus and subsequently write their final West African Secondary School Certificate Examination (WASSCE). Junior High School pupils are expected to spend eleven weeks in school to complete their syllabus and write their final Basic Education Certificate Examinations (BECE). This directive by the government was received as good news by the teachers, students and parents as students were anxious to complete their final exams at the various levels to enable them start the new phase in their education.

CRAN was equally delighted for the reopening of schools as we are expecting a number of our CESS children to write their final examination both at the Basic level and the Senior High School levels. CRAN visited the students and used the opportunity to distribute term third feeding fees and other items to the children and their parents.
